

I will give you a system guaranteed to make you \$1,000 within 30 days... or I'll pay you \$500 CASH out of my own pocket!

Dear [fname],

This revolutionary system will deposit \$1,000... \$3,000... and \$5,000 commissions right into your bank account. It's called **My Top Tier Business** and I'm so confident it will work for you that if you don't make at least \$1,000 within 30 days of completing the system, I'll send you \$500 CASH via Paypal... or (if you don't have PayPal) I'll mail you a check.

Here's how it works...

You go through one step a day for 21 days (each step takes about 30 minutes). You get your own personal coach to walk you through the steps. After you go through the steps, you start sending leads to my online sales pages. (Don't worry... I'll show you how to easily get leads even if you have no experience online).

Your leads are put into my tested and proven marketing funnels. Those leads turn into sales (that you get commissions on). Then my top-notch phone sales team sells your leads into higher ticket programs FOR YOU... and you make \$1,000, \$3,000, or \$5,000 each time they do (they also get a commission on these sales).

This is the secret behind what makes My Top Tier Business work so well...

By far the most effective way to sell high-priced programs is 1-on-1 over the phone. The problem is that most people never figure out how to do phone sales themselves (or don't want to).

My Top Tier Business solves that problem. It takes care of phone sales FOR YOU and you still get the commissions.

But that's not all...

With **My Top Tier Business** you will NEVER have to create your own products, setup sales funnels or web pages, get a merchant account to process orders, or deal with refunds or customer service. My company takes care of all of that for you.

To date, **My Top Tier Business** has generated **over \$4 million** in revenue – half of which, \$2 million in CASH, has been paid out to people just like you.

Terry Lamb made \$14,000 from the very first lead he referred to **My Top Tier Business**. Terry is not a guru or an Internet millionaire. He's just a regular guy who struggled for years to make REAL money online until he found My Top Tier. In his words, *"If I can have success with this after my years of struggling, then I know you can get into it, follow the 21 steps, and have success too."*
